

KANAE BUNCHE

Frontend Developer | Technical Support & Web Technologies

[Email](#) | [GitHub](#) | [LinkedIn](#) | [Koded by Kanae](#)

PROFESSIONAL SUMMARY

Customer-focused frontend developer with experience troubleshooting websites, supporting users, and building responsive applications using React, JavaScript, and modern web technologies. Strong background in debugging, deployment workflows, communication, and technical problem-solving.

Education: Flatiron School — Full-Stack Web Development Certificate | SUNY Plattsburgh — B.S. Political Science

PROFESSIONAL EXPERIENCE

Owner & Web Developer — Koded by Kanae (2024–Present)

- Designed and maintained responsive business websites using React, TailwindCSS, HTML, CSS, and JavaScript.
- Troubleshot technical issues, optimized performance, and provided ongoing client support and maintenance.
- Managed deployments, SEO improvements, and responsive UI enhancements through GitHub and Vercel.
- Worked directly with clients to communicate technical solutions clearly.

IT Consultant — Fordham University (2025–2026)

- Built and supported internal platform features using React, Node.js, SQL, and REST APIs.
- Debugged workflows, optimized application performance, and maintained technical documentation.
- Collaborated with stakeholders to deliver technical solutions and iterative improvements.

Coding Instructor — Code for Life (2023–2024)

- Taught HTML, CSS, JavaScript, Node.js, and Express to over 100 students.
- Managed lesson planning, grading, and technical troubleshooting support.
- Assisted students with debugging applications and development workflows.

Elementary Teacher — Success Academy Charter Schools (2026–Present)

- Developed strong communication, organization, and problem-solving skills in fast-paced environments.
- Managed classroom systems, student data tracking, and daily operational responsibilities.
- Communicated regularly with families and staff while adapting quickly to changing priorities and challenges.

SELECTED PROJECTS

Fordham AI Tools Platform — React, Node.js, SQL | [Loom Walkthrough](#)

Developed scalable dashboards, UI systems, and internal platform features for university operations. Improved usability and streamlined workflows through responsive frontend development and technical optimization.

Cybermissions Website Redesign — HTML, CSS, JavaScript | [Live Website](#)

Improved responsiveness, accessibility, and overall user experience for a nonprofit organization. Enhanced mobile usability and modernized layouts to improve navigation and engagement.

Koded by Kanae — React, TailwindCSS, Vercel | [View Website](#)

Built and maintained client websites while handling deployment management and frontend optimization. Worked directly with businesses to troubleshoot issues, improve performance, and deliver responsive web experiences.

ChristKid Concept Store — React, E-Commerce UI | [View Project](#)

Designed a premium mobile-first storefront focused on polished UI and responsive design. Created modern e-commerce layouts with a strong emphasis on branding, visuals, and user experience.
